Thrissur, Kerala, India

SUMMARY

Software Engineer with 4 years of experience building scalable, high-performance web applications and executing complex repository migrations. Expert in Angular, TypeScript, and RxJS, utilizing modern AI-driven development tools to optimize development velocity. Passionate about bridging the gap between advanced frontend architecture and seamless UI/UX to deliver intuitive user experiences.

SKILLS

EDUCATION

Software Engineering | Verzeo, Bangalore

March 2021 – September 2021

Bachelor of Science in Mechanical Engineering | Universal Engineering College, Thrissur

August 2012 – August 2016

WORK EXPERIENCE

Software Engineer | KOCHI (Serving Notice Period)

Beinex Consulting Pvt.Ltd

Dec 2024 – Present

- Specialize in Angular development, focusing on building and maintaining scalable enterprise-level web applications.
- Collaborate effectively with product managers, designers, and back-end developers to ensure seamless integration of front-end components with back-end services, driving successful project delivery.
- Architect and deliver enterprise-grade web applications using Angular, TypeScript, and modern Micro Front-End (MFE) architectures to build independently deployable modules.
- Conducted regular code reviews to ensure code quality and adherence to architectural standards.
- Optimize application performance through lazy loading, efficient change detection strategies, and advanced RxJS stream management.
- Leverage modern generative AI tools and LLM assistants to maximize engineering velocity automating routine code structure patterns and boilerplate compilation to strictly focus on core reactive design implementations.

Angular Developer | KOCHI

Techwyse Internet Marketing

Feb 2022 – Oct 2024

- Architect and implement robust, scalable web applications using Angular, RxJS, and TypeScript, ensuring efficient use of modern JavaScript (ES6+) features and industry best practices. Developed new user-facing features and functionality for applications.
- Work closely with UI/UX designers to Achieve high-performance user interfaces using HTML5, CSS3, SCSS, and Bootstrap.
- Mentor and provide technical leadership to junior developers, promoting best practices in front-end development.

Junior Software Engineer | Kochi

Bramma IT Solutions

Dec 2021 – Feb 2022

- Refined database schema designs using MongoDB, resulting in faster query execution times and enhanced data organization.
- Self-motivated, with a strong sense of personal responsibility.
- Collaborated with cross-functional teams to ensure seamless integration of new features in Angular.
- Built databases collections using MongoDB for web applications.

Personal Projects

Redstore Ecommerce Website

Developed a fully responsive ecommerce website using Angular, ensuring seamless performance across devices.

Netflix Website

PassKey :f32f720174050ec9d4d4f7764ba91d63

Developed a fully responsive Netflix website using Angular, swiperjs with API intergration

AWS DRIVE MANAGEMENT

Created S3 bucket and Uploaded and Populated
Uploaded Image and Folder in the Web Page

Socila Media Application

Developed a social media website using
Angular,Nodejs,Mongodb ,websocket etc.
